

## Find the Implicit Questions: Unit 7

### Overview:

Here is a handout students can do to review Unit 7 Model Sentences and get some practice at a key skill for making longer answers- finding the implicit questions hidden within every answer. This activity is modelled after the one on page 25 and is quite effective for helping students gain sensitivity and awareness to implicit questions. While an easy concept to grasp, students will often need extra practice in sussing them out. Over time, they will learn to sense these questions and answer them automatically before there is need for the partner to ask them out loud.

Feel free to use this handout in class if you have some extra time, as a homework assignment, or even as a short quiz. Print out the answer key and have your students check their answers if you'd like to save some work on marking papers. Alternately, you could go over the answers in class. Note that there are other possible correct answers- implicit questions don't necessarily need to be fully formed complete sentences. Use your judgement when looking over your students' work.

While I'm at it, here's another idea for you: After going over the answers, have students work in pairs to ask each other these questions. Students then need to make long answers that answer the implicit questions on the handout. This will allow everyone to personalize this task and get a bit of speaking practice in.

If you would like to receive a .docx version that you can edit and customize yourself, please get in touch! I'd be happy to email it to you.

Good luck! I hope this handout helps. If you have any ideas for improving it, I'm all ears!
